What is the GLA?

Mission:

Since 1935 the Geneva Lake Association (GLA) has served as guardian of Geneva Lake and its surrounding area. GLA advances its mission of conservation, preservation, environmental integrity and general welfare of Geneva Lake with timely and issue-centered communications and education through a wide membership base of area residents and local businesses.

See page 65 for the GLA By-Laws.

GLA services and benefits include:

- The attentive oversight and monitoring of Geneva lake area issues and concerns through the GLA Executive Secretary and its 27 member Board of Directors;
- The annual publication of the GLA Directory of residents and pier numbers distributed to over 500 member families and businesses;
- The annual updating of the GLA established pier numbering system as a cross reference guide (pier numbers to street address) to enhance lake safety and for emergency use by the Water Safety Patrol, police, ambulance, and fire departments around the lake;
- Periodic distribution to members and friends of the GLA produced newsletter, the *Geneva Lake Guardian*.

Background:

During its over 80 year history, the GLA has grown to a broad membership of residents and businesses representing every village, association, inlet, bay and shore path around Geneva Lake. Residents on the lake and off the lake look to the GLA as the lake-wide organization in place to be attentive and pro-active with an emphasis on communications and education.

The size of the lake area and the wide, varied interests of its growing population require that the GLA Board include 27 Directors from all corners of the lake. This group, plus several retired (honorary) Directors, the GLA officers and its Executive Secretary form the governing structure of the GLA.

Black Point Historic Estate and Gardens

Planning on a facelift

Our very own historical landmark, Black Point, is going to have a face lift. Plans are in the making to restore the wraparound veranda and screened porch including the balustrades, stairs, electrical, gutters and all other structural supports. This project may start as early as late summer. Careful attention will be paid to every detail and the restoration will re-use as much original material as possible. The guidelines for structures on the historic register are very strict and must be followed exactly in any restoration project, but the project must be undertaken due to the evident weakening of the timbers and planing.

The work will be challenging in and of itself. However, the work will be done during the months that the house will be open for tours. Traditionally, the verandas and the screened porch were used extensively by the family during the summer months, and so it is today with the visitors who come to tour the house. Groups gather on the veranda for their introduction and are encouraged to linger after the tour to absorb the relaxed feel—just as the family did for generations. Thus, the restoration project will present a true opportunity for the

Wisconsin State Historical Society to inform visitors about the challenges of maintaining a 128 year old structure.

Following this project, restoration of the building envelope will be complete. Attention will then focus on garden improvements and interior restoration. The Black Point Horticulture Committee and the Wisconsin Historical Society have developed a plan with Chicago-based landscape architect Ted Wolf to refresh the estate's gardens. Garden improvements will be implemented in phases, starting with a Wisconsin woodland garden, as philanthropic cultivation permits.

In 2014, Black Point Estate and Gardens was selected by Fodor's Travel as one of the top ten Historic Home Estate Tours in the United States. With this restoration project and the forthcoming development of the gardens, it will only get better!

Tours continue throughout the summer months. If you haven't already, be sure to visit this historical and beautiful Geneva Lake gem. Information about the estate and tours can be found at <http://blackpointestate.wisconsinhistory.org>.

Dear GLA Members:

When we asked for your email address, we promised not to clog up your inbox with unnecessary notices, but we thought it would be valid to remind you that our 2016 Geneva Lake Association Annual Meeting will be held Saturday... at the Big Foot Country Club in Fontana, Wis.

The meeting will start at 9:30 a.m. and should be finished by 11:30. Members and guests are invited. There is no charge, and reservations are not required.

Our featured speaker will be Mary Parizer, former Wis. Senate Majority Leader, speaking for the Wisconsin Shoreland Initiative, a new entity comprised of over 60 lake and property associations, working to return shoreline control to local governments.

In case you missed our announcements in The Beacon or the Lake Geneva Regional News, see the attached for a more complete agenda.

I hope to see you at Big Foot Country Club.

Do we have your email address on file?

The GLA's foundation is its membership base. It is the only organization of its kind around the lake with dues-paying members as its financial support. All contributions are tax deductible as the GLA is a 501(c)(3) tax exempt organization under IRS and State regulations. While it is virtually a volunteer run group, the GLA carries out its responsibilities with a paid part-time Executive Secretary working within an operating budget to provide services and benefits to a growing membership of over 500 families and businesses.

The GLA will continue to serve and support the interests of the wider Geneva Lake community through coordinated relationships with other lake-serving groups whose missions are compatible, such as the Geneva Lake Water Safety Patrol, the Geneva Lake Environmental Agency, the Kishwaukee Nature Conservancy, the Geneva Lake Conservancy, and its affiliated Environmental Education Foundation.

What has it done for me lately?

The following are a few good examples of GLA participation through communication and education in events of significant importance to Geneva Lake over the years:

- Securing funding a Fire Boat for Linn Township to provide additional support to all area Fire Departments;
- Supporting the efforts to the Geneva Lake Level Corporation to maintain the lake level;
- Early attention to forming a close relationship with the DNR in Madison to gain critical support in stocking populations of a wide variety of fish in our lake on a regular basis;
- Turning of the Northwestern Military Academy property from a dense multifamily several hundred unit development to a high quality plan of upscale single family homes;
- Aggressive lake community response to the emergency need for rebuilding the Lake Geneva City Dam controlling the water level of the entire lake;
- Resolution of the Black Point Peterson property crises that protects and prohibits the development of over 500 ft. of prime lake front land;
- Most recent successful lake-wide initiative to stop the serious development effort of turning the Yerkes Observatory property into a large scale lake front hotel/spa complex with potential devastating environmental and land/lake conservation damage resulting;
- Ongoing over 35-year affiliation with its sister organization, the Environmental Education Foundation, as it provides scholarships and grants to lake area students for environmental-centered studies and experiences.

LAKE SHORE PATHS

The Lake Shore path on Geneva Lake has existed for more than 100 years. There seems to be no specific judicial ruling as to the status of this Lake Shore path. It is believed to consist of an easement in favor of the public, and upon this basis the following answers are offered:

Question: Where does this easement exist?

Answer: It exists only upon the location in which it has been used without change or variation for the prescriptive period of twenty years, provided by our statute, although a slight variation at a given point will not impair such rights.

Question: Does an owner of property have a right to materially alter its course or character, even if such alteration be of public benefit?

Answer: No. If, however, an owner does make such change and if the public continues in the use of the easement in its altered condition for a length of time sufficient to show acquiescence in the change, effective complaint cannot afterward be made because of the change.

Change in a structure, however, which does not impair the easement but tends to ornament it, does not constitute any violation of the right owed by the owner to the public.

Where the owner alters the location of the easement, as to its direction and grade, such as the case where he deflects it from its original course and causes it to descend a bank, possibly supplying steps or some other means, although the user of the easement is not obliged to travel upon the path as changed, he may do so, and when he does so, it is by the license or implied consent of the owner.

There seems to be no duty of an owner toward a license, beyond the avoidance of any active, willful act, structure or contrivance which might injure the license.

Question: Can an owner be held liable for one injured by a danger concealed only by the darkness of night?

Answer: No. It is, however, strongly recommended that in case of changes made by owners as to the surface, course or level of the path crossing his property, it be so supplied so that travel thereon be not more hazardous than that part of the path discontinued. Proper guard rails are suggested.

It is very dangerous to prescribe limitations on liability and to define corresponding rights as applied to any specific instance. The above statements are on the general principles involving the relative rights of the public and liabilities of owners of Lake Shore property.

QUESTIONS AND ANSWERS—RIPARIAN RIGHTS, ETC.

The following answers to questions are based on the opinion of legal counsel:

Question: Is Geneva Lake a navigable lake?

Answer: Yes. It is so designated by Government Survey.

Question: In whom does title rest?

Answer: Title to the bed of the lake is vested in the State of Wisconsin, which holds title as trustee for the public to the end of maintaining and preserving the rights of the public in navigation thereof.

Question: What are the riparian owner's rights?

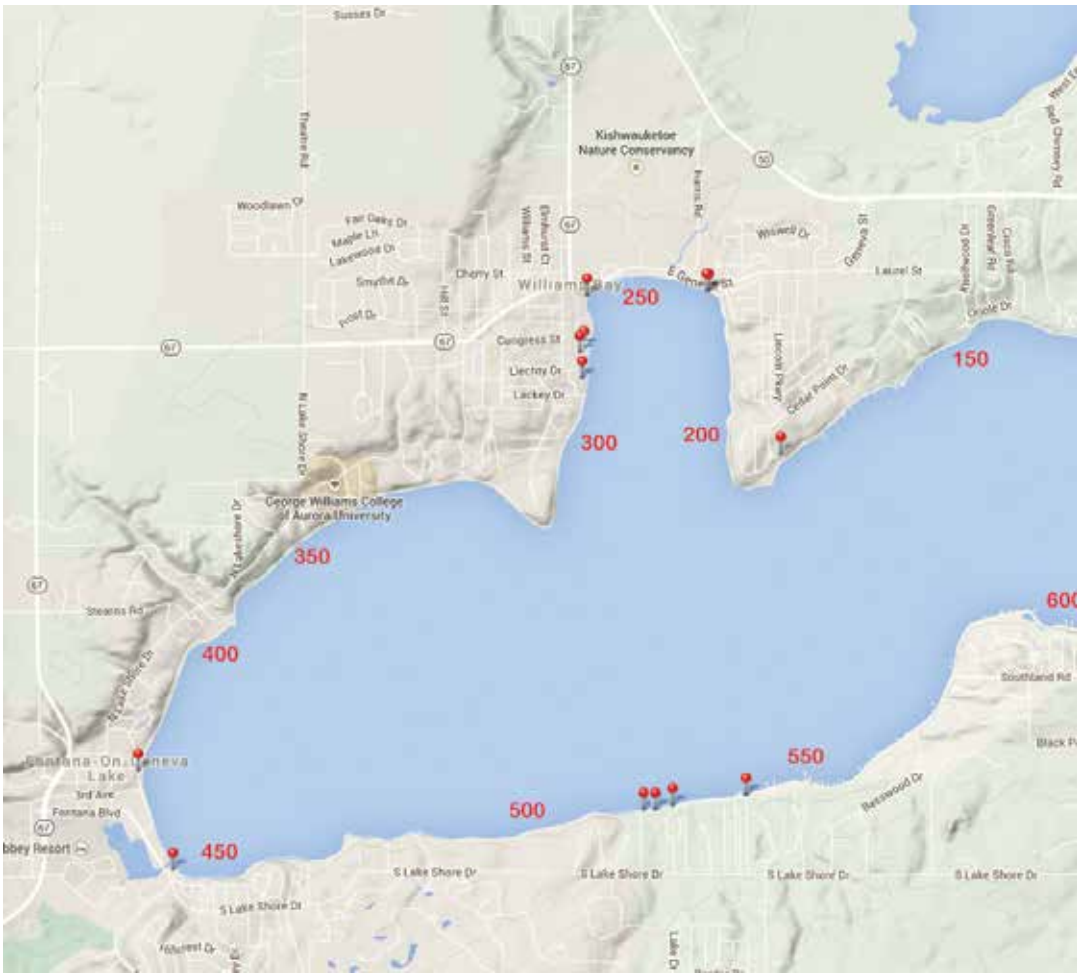

Answer: Riparian owners own their land on a navigable lake in fee simple down to low water mark. Their rights are based on their ownership and title to the banks. This ownership gives to them the exclusive privilege to the shore for the purpose of access to their land and the water. These rights include the right of using the shore for the building of piers extending into the water beyond low water mark, walls to prevent loss of soil by erosion, waves, etc.

Question: What rights and control does a riparian owner have over his private pier?

Answer: Private piers constructed and abutting on the private shore property constitute the sole and private property of the owner of the adjoining land; such owner is as free to prohibit the entrance upon such pier of unauthorized persons (except in emergency of storms, distress, etc.) as he is to deny his home to them. His dominion and control over the shore line is of the same nature, subject only to the right of navigation over the waters of the lake.

Question: May an unauthorized person moor a boat near a private pier and may he make a landing on private property?

Answer: No unauthorized person may moor a boat or a raft in front of private property in any manner that might interfere with reasonable navigation, to and from such property at any time. It is believed that the choice of an owner or his authorized friends as to the course of water ingress to or ingress from the property should rest entirely with the owner or his friends so using the property. Owner of such private property may notify any unauthorized person to remove such boat or raft, or may remove such boat or raft or cause same to be removed, in a manner not doing more harm to the boat than must necessarily result from its act of removal. Care should be exercised by the owner to avoid unreasonable action in the matter and to avoid further any manner of carrying out the removal of the boat from which malice could be inferred.

GLA Sponsors Placement of Lake Path Signs Around Geneva Lake

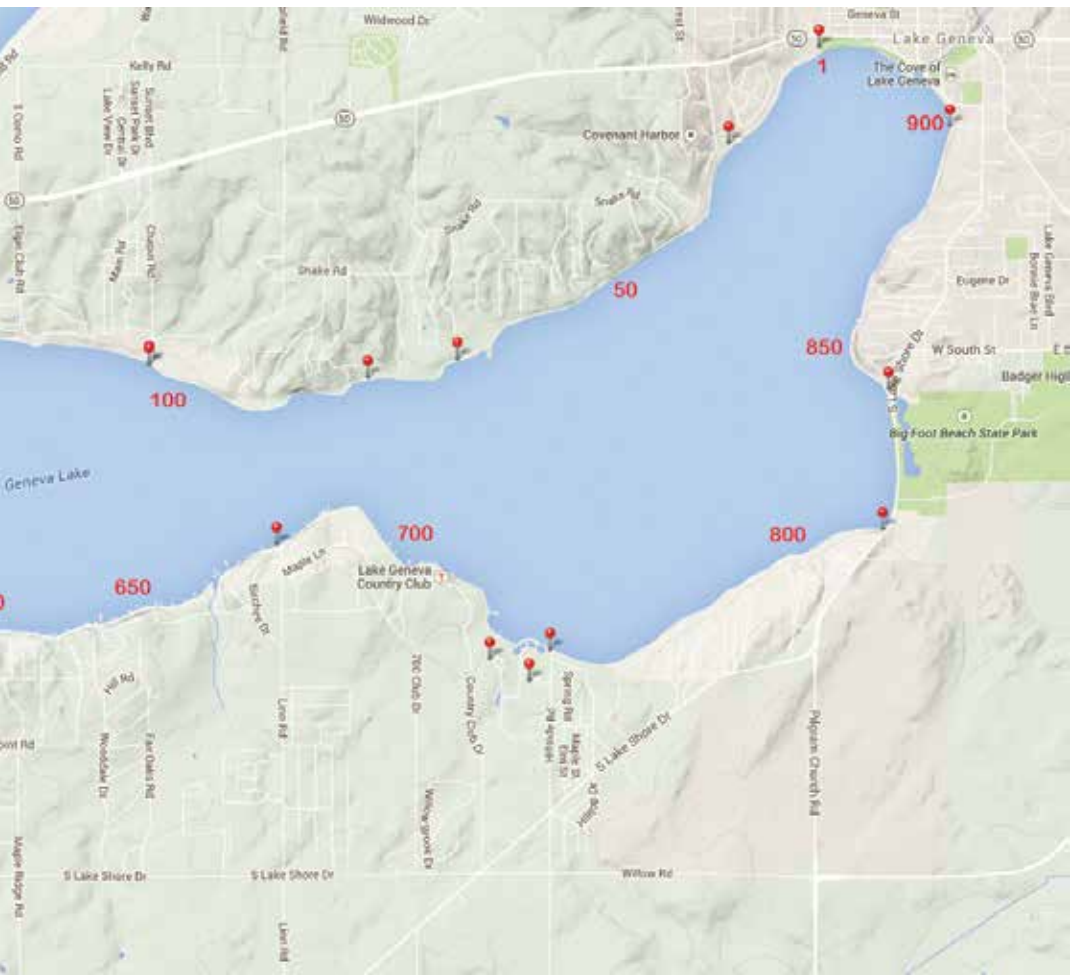

With the approval of the four communities around the lake, the GLA Board of Directors replaced those signs. Some had deteriorated and the message was unclear. Additional signs have since been requested and approved. Photos with GPS coordinates of the signs and indicated their locations. These attractively painted wood signs, mounted on steel or wood posts, are placed around the lake.

We are all aware that the public, by tradition of well over a century, has been walking the Lake Path completely around the lake, even though it passes over private property. The GLA Board of Directors is very careful not to violate the trust given them by lake owners.

We know, however, that there are abuses by a few, so the GLA Board of Directors has established implied rules. The signs, strategically located on the walking path, indicate what is not permitted.

Lake Path signs are available to home owners or property owners with the approval of GLA.

ENVIRONMENTAL EDUCATION FOUNDATION, Mission

The mission of the EEF is to award educational scholarships and grants to area students and schools for environmental-centered studies and to promote environmental awareness to all ages of the Geneva Lake area.

The Environmental Education Foundation (EEF) was founded in 1980 as an affiliate of the Geneva Lake Association. Mr. Thomas E. Reynolds, Sr. and Mr. Fillmore W. Galaty, both past presidents of the Geneva Lake Association, recognized an opportunity to promote environmental education by offering scholarships and environmental experiences to Geneva Lake area youth. Their dedication to area youth and environmental awareness led to the formation of the Geneva Lake Association Environmental Education Foundation. The EEF is an independent, tax exempt 501 (c) (3) affiliate of the Geneva Lake Association.

During its 37-year history, the EEF has awarded more than \$450,000 in college scholarships, camping and outdoor education awards to more than 400 area youth, from 5th grade through graduate school. A new \$2500 annual scholarship for local students attending George Williams College has recently been added as well as a Geneva Lake Dark Sky internship at Yerkes Observatory.

Nearly \$40,000 can be awarded in a single year to students in a variety of age groups and educational levels. Included in this amount is the Environmental Education Foundation Thomas E. Reynolds (TER) Endowment Fund, which annually contributes \$12,000 in the form of a four-year scholarship to a qualified local graduating senior interested in pursuing a degree in the environmental science field.

Past college scholarship recipients include students from Badger High School, Big Foot High School, Williams Bay High School, and Faith Christian High School. Funding for environmental activities such as Outdoor Education grants and Nature Adventure Camp scholarships are awarded to local elementary and middle school students.

Applying for Scholarships or Grants

The EEF maintains an informative website at www.eefscholars.org. The website includes descriptions of the funding that is available, as well as downloadable and online application forms. The application deadlines are varied, so applicants are encouraged to browse through the programs and applications to avoid missing out on the opportunities which are offered.

Donors Welcome

Contributions to the Environmental Education Foundation, Inc. are deductible for income tax purposes, and donations may also be made via the Foundation's website.
